Re: Unmarked vehicles transporting and disposing of infectious waste

Dear Mr. Akeley,

I have enclosed photographs of a vehicle, with Texas license plate # MVB3930, that appears to be hauling infectious waste from 701 San Mateo Blvd., N.E., in Albuquerque, New Mexico. As you can see from the photographs, the vehicle is unmarked with respect to the name of the company.

This would appear to be a violation of NMAC 20.9.5.14 (A)(7) and (8) which, as you know, requires commercial haulers of infectious waste to:

- (7) conspicuously label all solid waste collection vehicles with the company, municipality, or county department name;
- (8) conspicuously label all solid waste collection vehicles with the environment department registration number.

The truck appears regularly at 701 San Mateo Blvd., N.E., in Albuquerque, New Mexico on Fridays at about 1:00pm.

I would appreciate the Environment Department looking into this matter and would also like to receive information about who is operating this disposal company. Please let me know if I can provide any additional information or be of further assistance. Thank you.

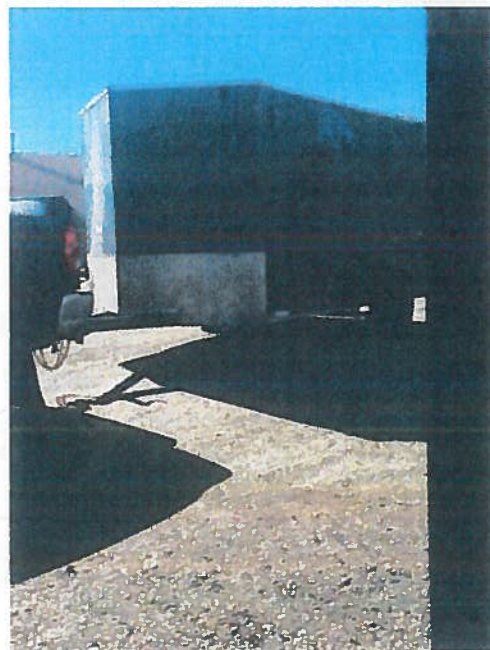

Sincerely,

Tara Shaver
