Hi Babe.

It is now 7:20 pm, only a week till I see you. I've been missing you and really enjoyed the card. I read it almost every day.

This will probably be the last letter till you return. I know that you have the ability to do well on the final. You can get the best grade ever if you want, because I believe you can. So go for it.

The track pile grows by the day at Greenacres. I just found out today that the track company is not going to pick up the track.

I have to make special bundles for the wood, which is 90% of the pile.

I am meeting with Janra Yeates of Temporary Solutions, Inc on Monday. She is the person that built her sewer company to #70M. I am looking forward to her comments and help.

The weekend is loaded with work at Greenacres and a little moving. I will probably leave most of the furniture at Segel Court until the construction is complete. The rooms look great with the panelling down. I hope to give the kitchen a face lift next week during the evening. Then finish up the great room and the Den stairs. Any way it's come a long way since you were there, but there is a long way to go!

See you soon
Peter
