Dated September 2, 2026,

The Violations of our 1st Amendment right to freedom of speech as well as purposeful restriction of our rights to government records requested under the Open Records Law NRS. 239. The actions of NYE County, Township of Pahrump and the State of Nevada are unlawful. These actions must cease immediately.

Article 1, Section 2 of the State of Nevada Constitution states:

Sec: 2. Purpose of government; paramount allegiance to United States. All political power is inherent in the people[.] Government is instituted for the protection, security and benefit of the people; and they have the right to alter or reform the same whenever the public good may require it. But the Paramount Allegiance of every citizen is due to the Federal Government in the exercise of all its Constitutional powers as the same have been or may be defined by the Supreme Court of the United States; and no power exists in the people of this or any other State of the Federal Union to dissolve their connection therewith or perform any act tending to impair[,] subvert, or resist the Supreme Authority of the government of the United States. The Constitution of the United States confers full power on the Federal Government to maintain and Perpetuate its existance [existence], and whensoever any portion of the States, or people thereof attempt to secede from the Federal Union, or forcibly resist the Execution of its laws, the Federal Government may, by warrant of the Constitution, employ armed force in compelling obedience to its Authority.

It is not just the right of people to speak it is also the right of the people to hear. These rights have been and are currently being violated and is not debatable whether this violates our rights ordained to us by our creator as spelled out within the Constitution.

We have already reported the actions of these people. And to date no corrective action or remedy to the behavior has been taken. This notice was given during 2024 and 2025. The violations of rights are so many and extreme it's not even a debatable matter.

The following must be done to remedy the violations:

NOTICE: Immediate cessation of right violations

The following must occur:

County reinstates the 3-minute public comment rule at the public meetings. Moving to 2 minutes was done without proper notice nor do we believe it complies with the adequate time frame as required by ordinance of open meeting laws.

Immediate secession of refusal of providing records whereby there is no STATUTE supporting the refusal. (Note each case law provided by the District Attorney to support his refusal to release records...the government lost the case and had to supply the records)

Immediate compliance of all agencies at Town, County and State level to comply with records request that have not been provided and complied with. (They will be re-submitted)

Immediate suspension of Board members disrupting and removing persons from the public meetings whereby they do not like what the people are saying. (Removal is appropriate in very limited circumstances involving threats or disruption of the meeting)

Official apology to the people for the violations of their rights to speech and to hear.

NOTE this is final notice that further legal action will be taken. These actions affect rights of each and every person within NYE County and the public funds are being improperly used to effect these acts thus each person has standing.

Further we are in possession of emails whereby the current District Attorney is purposely refusing to hand over documents and stating that people cannot have the documents until such time as the County Commissioners address these matters in open meetings once they have finalized negotiations.

All acts of the people within the government are our records. Not only when completed. We have the right to review, observe and see what our officials are doing. To question and hold accountable our officials. Any action to restrict this is unlawful.

Time is short, we will not wait months for action. It is important that a cease of action can take place while an investigation is carried out or the proper FEDERAL legal action will be filed within 30 days.

Please note there is sufficient evidence that the actions are unlawful, being done on purpose and are unconstitutional.

Cordially,

Journalist for Justice
