Dear Governor;

The matter we bring forth today is significantly serious and requires your office in order to protect the rights of people to take immediate action.

Attached you will find an email that District Attorney for Nye County Brian Kunzi sent to other employees and elected officials within Nye County.

The action he took creates the following:

- Election interference
- Removing the ability for the media to inform the public
- Showing disdain for the Constitution, both state and federal
- Showing disdain for the statutes that support the rights of the people
- Attempts to remove transparency to protect people within the county from scrutiny
- Weaponizing the court system against the people
- Enrolling additional staff and elected officials in his conspiracy to deny access

This action by Mr. Kunzi has no place in our Constitutional Republic. His behavior is done purposely and with malice. An informed public is paramount to a free society. Additionally, by keeping possibly embarrassing information from the public can affect the election in ways to prevent the voice of the people being heard.

It is imperative that this matter be addressed. Our other attempts to get the Attorney General to step in and resolve this matter have resulted in ZERO results for the people. Attached you will find one of many responses received by that office to our organization and others.

Additional letter is going out to other agencies for immediate resolution.

Our organization has repeatedly informed you of failings and acts which rise to the level of RICO taking place in Nye County. To date we have received nothing. These and many other matters could have easily and readily been resolved. Now we are at a crossroad.

Please note that it is our recommendation that you use your executive powers to resolve and appoint a temporary DA from a person outside of Nye County.

This is not an act that can be swept under the rug and ignored. WE THE PEOPLE will not be ignoring this matter.

We look forward to hearing from your office and others quickly. We are poised to bring additional actions against the County, its officials as well as the State of Nevada for failure to properly supervise the actions within Nye County.

Please note that due to the volume of requests and information about the RICO acts within this county and the lack of response that we have crossed a threshold of where the silence and lack of response shows that “WE THE PEOPLE” can and will be taking appropriate actions to preserve our rights and hold accountable those that choose to steal away our rights granted to us by our creator.

Thank you in advance for all appropriate actions and considerations.

Cordially,
