

PREMIUM RESIDENTIAL DESIGN

Designed for the way you live,
Built to stand apart.

ABOUT MSA

Design. Detail. Purpose.

Mansoor Shehzad Architects is a multidisciplinary architecture and design practice based in Lahore, Pakistan, working across architecture, interior design, urban planning, and construction. Our team combines design expertise, technical knowledge, and a considered approach to develop spaces that are responsive to their context, purpose, and users.

Our Philosophy.

We believe architecture extends beyond the creation of buildings - it is about shaping meaningful spaces and experiences. We strive to design environments that are thoughtful, engaging, and responsive to the people who use them, creating spaces that inspire, enrich, and endure.

Our Mission

We are committed to delivering high-quality architectural services that respond thoughtfully to our clients' needs, aspirations, and project requirements. We aim to combine creativity, functionality, and technical expertise to create distinctive, well-resolved spaces that are both purposeful and enduring.

Our Approach.

We take a holistic approach to architecture, considering not just the building itself, but also its impact on the surrounding environment and community. We believe that good design should be sustainable and socially responsible.

WHAT WE DO

Everything under one roof.

ARCHITECTURAL DESIGN

Thoughtful and distinctive designs tailored to your lifestyle and site.

INTERIOR DESIGN

Refined interiors designed for comfort, function, and character.

3D VISUALIZATION

Photorealistic renders that bring your design to life before construction.

WORKING DRAWINGS

Precise construction documentation for smooth execution on site.

CONSTRUCTION

From material selection to site supervision, we help bring the design to reality.

RENOVATION

Transforming existing spaces into something better.

SELECTED PROJECTS

Residences designed to stand apart.

1 Kanal Residential Design - Khayaban e Amin

KHAYABAN E AMIN

1 KANAL

Defined by strong geometric frames, dark textured finishes, warm linear lighting, and expansive glazing, this 1-kanal residence creates a sophisticated yet welcoming presence.

1 Kanal Residential Design - DHA Ph VII

DHA PHASE VII

1 KANAL

A composition of clean volumes, vertical textures, deep reveals, and warm accents creates a striking façade that balances privacy, openness, and modern elegance.

SELECTED PROJECTS

Residences designed to stand apart.

1 Kanal Residential Design - Valencia Town

VALENCIA TOWN

1 KANAL

Clean architectural lines, natural stone textures, warm timber accents, and expansive glazing create a balanced façade that feels both modern and inviting.

1 Kanal Residential Design - Canal View

CANAL VIEW

1 KANAL

Layered volumes, textured surfaces, vertical lighting, and deep entrances come together to create a distinctive contemporary residence with a strong architectural presence.

SELECTED PROJECTS

Residences designed to stand apart.

1.5 Kanal Residential Design - Bahria Town

MSA

BAHRIA TOWN

1.5 KANAL

Rust-toned metal, textured concrete, warm timber, and expansive glazing create a striking contemporary residence where boldness meets warmth.

1.5 Kanal Residential Design - Bahria Town

MSA

BAHRIA TOWN

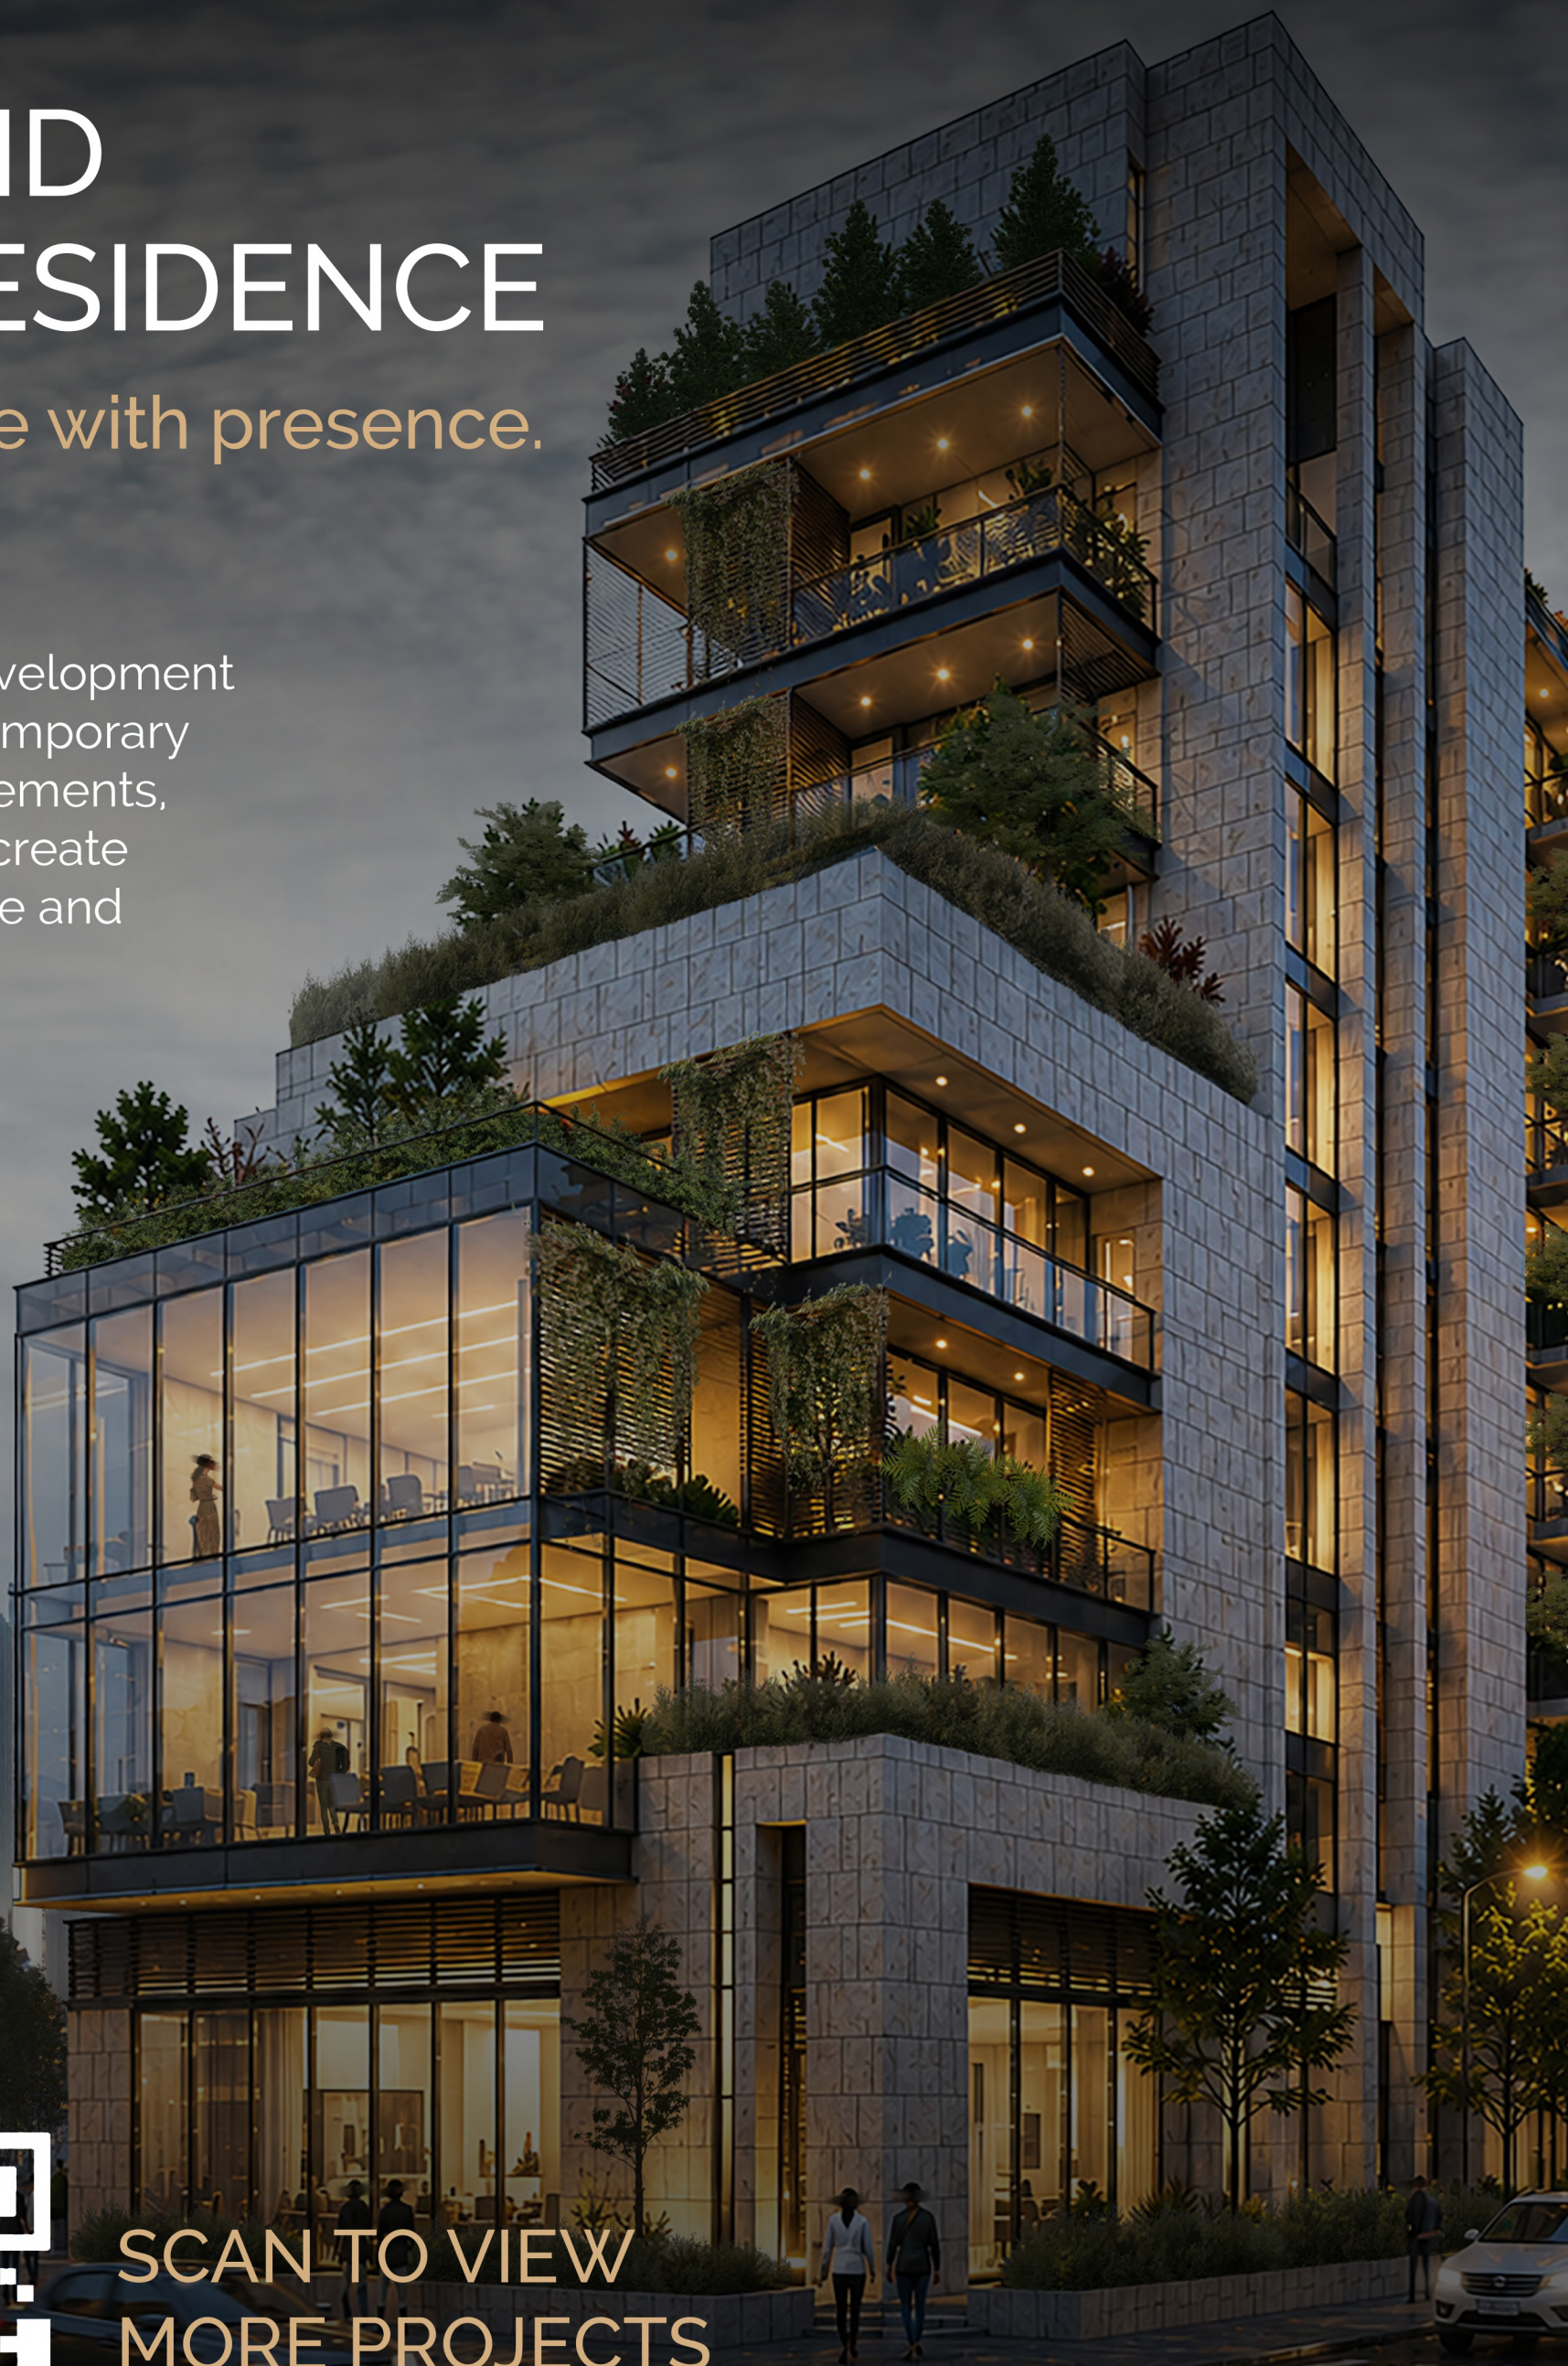

1.5 KANAL

Strong horizontal lines, rich timber, textured concrete, and carefully integrated lighting create a sophisticated façade with a timeless modern identity.

BEYOND THE RESIDENCE

Architecture with presence.

A mixed-used development that blends contemporary design, natural elements, and urban life to create spaces that inspire and endure.

MANSOOR SHEHZAD
ARCHITECTS

Architecture is more
than the spaces we build.

It is the atmosphere we create, the memories
we hold, and the lives that unfold within them.
