Intro to Helen Forty & Daniel Darby: Shamanic Drumming Circle + Love Harmony

Daniel will lead a shamanic drum & rattle circle. Using percussion instruments or our hands, we will all make sound. Initially this can be chaotic, but surprisingly quickly the group creates harmonious rhythm. The energy takes us into an altered state and brings relaxation and peace. No previous experience is necessary, this is an easy practice that everyone can enjoy. If you have percussion instrument such as a drum, click sticks or a rattle please bring it with you.

Helen will talk about romantic love and how we can all have happier relationships. What would improve your love life? Is it time to take a risk, or let go, or commit? Is it time to love yourself more? What do you want? There will be a meditation to help you gain clarity & insight.

Daniel & Helen are shamanic practitioners and this evening is also an opportunity to meet them in person and learn more about their workshops in Hong Kong for September/October 2025.

There will also be range of crystals available to buy!

Location: Causeway Bay, Hong Kong
