DELTA ENGINEERING & CONSULTING

DEC Global is the industry's first Compliance & Project Management Firm that performs an In-Depth Knowledge & Experience Testing of each of our consultants, and the first to fully embrace and apply the front leading technologies of the PERFORM™ AI Platform. We have created our own unique eco-environment giving way to optimizing Phases/Tasks for Conventional and Unconventional Exploration and Production. Creating a sustainable and repeatable methodology of success for our customers. Let us show you how we optimized a customer's Artificial Lift Installation - ESP. Reducing annual AFE by \$9,600,000, and increased production by \$58,000,000 for the same AFE. While eliminating "Human Induced ESP Green Pulls/Failures".
