

Meet the 2021 Once Upon A Hero Beneficiary – The Palumbo Family

Once Upon A Hero's 2021 beneficiary family is the Palumbo family – Anthony and Diana are the parents of 4-year-old twins, Enzo and Anastasia (Sia). On Sunday March 29th of 2020, the family went for a walk along the river at Cascade Park in New Castle, PA, which was high due to many days of rainy weather. They were about to feed the ducks when a large tree snapped and fell on top of the family. Anthony and Enzo escaped with minor injuries. Unfortunately, Diana and Sia were not as lucky. They were knocked into the water and sustained severe injuries; Sia's heart stopped. Thankfully, a passer-by stopped and performed CPR, reviving her. Sia sustained an eye injury and nine different skull fractures. Diana suffered a spinal compression fracture, which required immediate surgery. Additionally, she had four broken ribs, a collapsed lung, and a completely shattered shoulder. Diana has

undergone multiple surgeries for her injuries and continues to recover. She is unable to work as she recovers, while Anthony is caring for her and their children. As they continue to recover, Once Upon A Hero will assist the Palumbos with the medical and personal financial challenges they face due to unexpected medical bills and loss of work. You can be a hero by giving a monetary donation, via the donate tab on our website or by attending our annual charity golf outing on August 14, 2021. More information regarding our golf outing can be found on our website and on our Facebook page.
