

PLATFORMS AND LANGUAGES

Working with various platforms and languages offers benefits ranging from greater adaptability and versatility to improved interoperability, and reduced risks.

These are some of the technologies we work with:

PLATFORMS

They provide the structural base we use to design and deliver your technological solutions.

Microsoft Azure

GitHub

Firebase

DATABASES

These systems store all data tables and information.

MariaDB

mongoDB®

Microsoft®
SQL Server®

FRAMEWORKS

They create a structured approach that ensures clarity in project workflow and organization.

React

Angular

Vue.js
Vue

MAUI

.NET

Xamarin
