Dear Principal or Activities Director:

D.A.N.C.E. EMPOWERMENT is about to kick off its MENTAL HEALTH WELLNESS SCHOOL TOUR. As a non-profit organization that utilizes dance, live performances, and mentoring programs to promote the three issues closest to our hearts and our community: staying in school, staying drug free and staying away from gangs and violence we are once again heading to many of the communities within our state to reach thousands of kids in Fresno, Clovis, Madera, Kingsburg, Lemoore, Parlier, Coalinga and even Merced.

We all have noticed a deterioration in today's youth and their ability to lead on as this nation's future generation. This deterioration has truly touched the hearts of the staff at DANCE EMPOWERMENT and with great hope of having a dramatic impact on those students, we are revamping our school tour to reach more children than we ever have before. This year's school tour consists of audience interaction, dance contest, prizes, and live performances from members of DANCE EMPOWERMENT.

We are currently preparing for numerous events, and school festivities such as school dances, rally's, and lunch or recreational activities, so in an effort to fully prepare we are requesting your early response. We encourage your school or facility to get involved and return a completed application as soon as possible to ensure that your performance day is secured.

To aid in your decision making processes we have included a contact referral list of various schools and vendors throughout the valley where DANCE EMPOWERMENT has previously performed at or knows about our program. Please feel free to contact the references provided if you have any questions or just need additional information.

We appreciate your support and look forward to having the opportunity to perform at your school or facility. As an added thank you, you will receive a 5% fee reduction for any school that requests performances for the Mental Wellness SCHOOL TOUR under your referral.

Sincerely,

Wayne Hurley
