

MORNING WATCH

for the week of January 16, 2022

DREAM

WHEN YOU STOP DREAMIN',

YOU START DYIN'

IF YOU AREN'T DEAD,

YOU AREN'T DONE.

As we start out a new year, we realize that there are new beginnings happening all the time. (Another gift from our Heavenly Father!) We all have or have had dreams. As we age, we find that perhaps those dreams have not happened. Are you sure of that? God's timeline is usually different than ours. (Sometimes faster and sometimes the opposite.) Perhaps He is simply showing us the way to our dream. He can see the entire picture while we only see a small vision of what can be. God wants us to dream. He usually has given us the dream that we think is not happening. Often it is just His way of helping us by giving us lessons that we are going to need to make the dream come true. He is also giving us time to work on that dream. and He EXPECTS us to work on it. No, you are not too old to dream. If you 're not dead/ You're not done. He has work for you to do yet. Be in touch with Him. Dare to dream and follow that dream. (He will help!)
