

# **Morning Watch**

**for the Week of October 24, 2021**

**(Part two from October 17<sup>th</sup> Morning Watch)**

**Last week's Morning watch reminded me of this:**

**When in college and taking our trash to the “trash shoot” where it went down a tube to the furnace and was burned up---we were not allowed to put any dirt down the shoot because it would cause the furnace to “blow up” so to speak and shoot it all back up the tube into our lives once again, and that was greatly discouraged!**

**It seems to me that there is a message in that-- “Be careful of the dirt that you send out into the world via conversations--personal or social media---it will without a doubt blow back in your face, and you’ll be wondering ‘Where did this come from?’--I came from you!”**
