

Morning Watch

for the week of November 21, 2021

Becoming the Me I'm to BE

Proud to be ME

Discovering my piece in the jigsaw that's called Life.

Since the beginning of time, God's Beautiful Perfect Picture has had one "blow up" after the other preventing His vision to have permanency. The most recent "blow-up" being the Pandemic. It has shattered the world as He created it once again. The jigsaw is scattered all over! How can we /How can I help to put it back together?

First of all, we each need to try to find our own piece of the puzzle. Why am I here? How do I fit into the picture?

God knew what He was doing. Yes, He is still in charge, but He is more patient than we are. His beautiful creation has taken eons to date--He is waiting for us to help Him put the puzzle back together. We must be patient, too. We must work with our Heavenly Father to find our place in the puzzle. How can we do this?

Our Heavenly Father is always available to us--just waiting the be asked in. Be in touch with Him, --Simply ask for your place in the puzzle to be revealed to you. Then listen--wait--watch. He will send opportunities.

Hopefully we will recognize them.

"God, we want to help you put your beautiful picture back together.

Show us how!"
