

# MORNING WATCH

for the week of February 6, 2022

## MOOOOVIN' ON DOWN THE HIGHWAY

By the time you folks are reading this on the CAMP Morning Watch page January will be history. How is that possible? I don't know, but I do know we are well down Highway 2022. Is your Hwy 2022 a freeway or a side road? Whichever is fine.

It's up to you if you want to get to your destination fast or if you'd like to enjoy the trip a bit more along the way. I kinda miss the road map part of a trip. Tho I simply am amazed by a GPS, it does have its drawbacks. Time was when AAA used to give you a Trip Tic which pointed out all the cool things along the route it had picked out for you. As a youngster it was always my job to study this and the map in general and help the driver along the way. I loved that.

(Trip Tic or not, there are always more interesting things to see on the side roads.)

However, the freeways will get us to our destinations faster. We need to make yet another decision. Good luck!
