

# MORNING WATCH

for the week of March 15, 2021

In the past, I have borrowed from one of Boonie's main themes of his presentations which he was privileged to present around the world. **"PROBLEMS ARE REALLY JUST OPPORTUNITIES IN DISGUISE"**

Staying with that idea, it would seem that we have a whole lot of opportunities on our hands right now--RIGHT? WHOAH!

**BUT SO DOES GOD!**

Borrowing from yet another source-this time a political saying, ("Never let a disaster go to waste") I expect we really do have a lot of God's attention right now, and I know He's thinking of our situations as not Problems but as **BIG opportunities** as well. He should but, indeed we all need to be aware of that, too! Indeed, it is in times of trouble that we do tend to turn to God. As we realize this flaw in ourselves, we may also realize and not even question that we have that **OPPORTUNITY** at any time!

**Let's take that OPPORTUNITY more often!**

**Let Him be a part of our lives DAILY!**

**Maybe we'll find those PROBLEMS have disappeared!**

***Thank you, God for the reminder!***
