

MORNING WATCH

for the week of June 12, 2022

(Note from Janny)

Before writing the morning watches I usually ask for help, and sometimes it comes very quickly, and sometimes I have to wait a while. For this one my “helpers” knew it was needed and I did not even have to ask them, it just APPEARED! and it is short but sweet!

“BRIGHTEN THE CORNER WHERE YOU ARE”

Even before my time this old song was a hit!

Motivational books and tapes and videos have been produced by the thousands, yet this one sweet suggestion says it all. “Brighten the corner where you are.” Every one of us can do this! (Some are better at it than others), but everyone can do it! See someone who is gloomy? Give them a smile! (A smile is a magic potion!)

See someone sitting alone? Ask if you can join him or her.

See someone struggling to finish a task? Ask if you can help or just plain help!

We don't have to try to fix the world.

(Just the corner where we are!

And if everyone in the world would do this ----

NO MORE SORROW!

Like to hear this old song sung? Listen to Ella Fitzgerald on You Tube! (I just did. It brightened my corner! I bet it will yours, too!)
