

MORNING WATCH

for the week of June 5, 2022

“Train up a child in the way he should go,

and when he is grown, he will not depart from it.”

Proverbs 22:16

Sadly, it seems we have forgotten this advice from Proverbs 22:16. For more than one generation now it has been necessity for both parents in a family to be in the work force, leaving their children to be “trained up” however the child-care giver chooses Now certainly we all know that in some cases that person may be a wonderful role model for the child--- but NOT ALWAYS!

And in some cases, families cannot afford childcare, and their children almost “raise themselves!”

- **Children need guidance!**
- **They need to learn right from wrong.**
- **They need to learn manners.**
- **They need to learn how to follow instructions and to be respectful.**
- **And Most Importantly: They need to know their Heavenly Father!**

When they have not learned these things and something happens that seems unjust to them or if someone tells a lie about them, Revenge is what they may think about.

But not if they have received proper training at home/ at Sunday School/ or at CAMP!

CAMP is like a small world It is a training ground for adult life.

At CAMP Kids learn to follow instructions, to be on time, to understand that words can hurt,

- **They find out that they have many more skills than they ever dreamed,**
- **And most importantly: They get to know God!**
- **What the world needs now is: Love/ Sweet Love,**
- **What the world needs now is: CAMP**
