

MORNING WATCH

for the week of July 3, 2022

Life's not easy

WHY FACE IT ALONE?

Though some of us seem to have it easier than others in this life, still we each have our challenges. Why face them alone when our Heavenly Father expects and want to help us every day in every way! But we need to be in contact with Him every day, too!

Morning Watch is one way to do that. After Boonie and I moved back down to the farm (Nearly 30 years ago now!) we seldom let a day go by without "Morning Watch", (tho sometimes it turned out to be more an "Afternoon Watch" or and "Evening Watch." - still it happened) Recently I think my daughter, Barby, has seen that I've been missing those daily times with our Heavenly Father, and she has set up a new routine that I like a lot!--and I want to pass it on to you folks! (An easy way to do Morning Watch.) We live in a beautiful part of Southern Ohio, surrounded by parks and lakes and lovely scenery. Each day (no matter what time of day) she drives to one of these pretty places, and then she reads a special story from some books which she got just for our morning watches (uplifting stories that make you feel good and know that God is still in Control!) It's delightful, and also the right kind of addictive! We both look forward to this time of our day every day. I recommend it to you, as well.
