

A "SPECIAL" MORNING WATCH

for the week of August 22, 2021

"Make today a Special Day for someone,

Make today a Special Day for you".

In reviewing our most recent Camp Session at Tar Hollow, it is clear to me how much thought and effort had gone into its planning

The result?: A really SPECIAL WEEK! I am also aware of this happening as we plan special occasions such as Thanksgiving, birthdays, etc. Maybe a bit more special planning for our every days would be a good idea. Too often we just plod through the day, trying to get to the end of it. Maybe we should set a goal or goals for each day. Accomplishing a goal always makes us feel better, doesn't it? Parents should do this in regard to their children. Teachers, their students. All of us in regard to our work. Set a goal and work toward its completion, and as it IS completed, you children, students co-workers and we, ourselves will all feel good about the accomplishment! Like the folks who planned and worked out those plans for our most recent time at Tar Hollow. Their efforts made it turn out to be a really SPECIAL Week.

Make TODAY a SPECIAL day--OK?

How will you do that?

(By making it special for someone else

besides yourself, too.)

"A gift to you from God each morning, For you to take or throw away. A brand new day at every dawning to do the things He'd have you do each day!?"
