### HAPPY SPRING!

Hurray! Hurray! It's finally May! We are so excited to finally get to enjoy the lovely & welcomed spring weather that has been showing itself lately. With that wonderful warm weather comes spring rain, which can put a lot of stress on sump pumps. If you require any help with repairs or replacements, we would be happy to assist you!

In addition to sump pump packages, we are happy to announce that we are bringing back our Backyard Game

Changer Promotion! Starting at \$329, we install a mixing valve to your existing hosebibb line, allowing you to chose the temperature to your outside tap! This is a total Summer Game Changer! Not only can you fill your kids pool with warm water- or temper the already filled pool with hot water, you can bathe your dog(s) in comfort in the backyard, & also wash your outside windows or your car for a streak free shine! Contact us today for your FREE quote!

### SUMP PUMPS

With the welcomed warm weather we're finally experiencing, comes some much needed rain. Rain can be fantastic for growing plants, but devastating for non-functioning sump pumps. Avoid costly damages by checking your pump!

### BEST HOT WATER TANKS

Overwhelmingly, the Rheem brand is at the top of many consumer reports Top Picks for the best Hot Water Tanks. Not only is their warranty one of the best, but we wholly endorse this brand & are proud to install & repair all Rheem makes & models!

### BEST OF AWARD

We are proud to have received the Homestars Best Of Award for 2022! Homestars is a reputable site that helps match customers with local companies, & ensures that any & all reviews are verified, true reviews. Thank you Homestars for this wonderful honour!

**Home Plumbing FAQ:**

**Q:** What does a sump pump do?

**A:** A sump pump helps divert the ground water away from your home, preventing costly floods. Battery powered back up pumps are highly recommended in case of a power outage!

**Q:** What size Hot Water Tank do I need?

**A:** This depends on the property size, how many people are in the home, etc. For more than 3-4 people in the home, we recommend a 50 gal tank, to prevent any hot water shortages. Tankless HWT's are an excellent source of on-demand hot water as well!

*“During these challenging economic times, we have chosen to remain steadfast in not charging call out fees, service fees & to not charge anything extra on weekends or holidays. We will do our very best to continue this practice going forward. Our commitment has been & always will be to our customers & the affordability of plumbing & heating services.”*

- Brett Chambers  
Owner & Operator of Chambers Plumbing & Heating

**Plumbing joke of the month:**

**Q:** Why are plumbers always so tired?

**A:** Their work is so draining.

**CHAMBERS PLUMBING & HEATING DO'S & DON'TS:**

**1-DO**

Leave a review for us on our Google or Facebook! It helps us grow our business & we would be so grateful!

**2- DON'T**

Flush anything but toilet paper down your toilets. No tampons, pads, paper towels or wet wipes!

**3- DO**

Remember to check your sump pump before we get a lot of rain! Flood prevention is the key to avoiding costly damages.

**4- DON'T**

Pour hot water down your toilet! The temperature change can crack the porcelain & create costly issues.
