NEW OFFERS!

Welcome to Alberta's official cold weather season! While we've been very lucky for our extended warmer weather, we know the cold weather that's been creeping in at night & the early mornings is here to stay. We have been working hard to prepare for the inevitable winter temperatures- by creating affordable & helpful packages to help keep you, your family & your vehicles toasty this winter!

From Furnace Tune-Ups to Garage Heater Installation Packages to Furnace Installations! We're here to help service or install whatever you need! For emergency services, please keep us in mind. Call us at: 780-717-6930 or 780-238-5332, if you experience any furnace issues during our frigid winters. To schedule your no-charge quote, email us at: chambersplumbingandheating@outlook.com

FURNACE TUNE-UPS

'Tis the season for Furnace Maintenance! No one enjoys waking up on one of our -30 degree days, only to discover their pilot light won't stay lit! Contact us today to schedule your Furnace Tune-Up!

BEST HOT WATER TANKS

Canada has spoken! The top rated Hot Water Tank in the country- for both natural gas & electric- is Rheem! We're proud to purchase & install Rheem HWT's. If ever you require assistance with warranty- we're here to help!

BLACK FRIDAY!

We will be offering a Black Friday Deal from November 26th through to December 26th! Purchase a Garage Heater Installation or a Hot Water Tank Installation between the offer dates- and receive a FREE Furnace Tune-Up! That's a \$150 value!

Home Plumbing & Heating FAQ:

Q: My kitchen sink keeps draining slowly. How do I fix that?

A: A jetter is the only machine that will clear your pipes of organic material completely. We can help as we offer that service!

Q: Is a water softener necessary?

A: While this has a yes and no answer, we lean heavily to the "yes" side. If you or anyone in your family suffers from chronic dry skin, dandruff, using a large amount of laundry detergent- a water softener can help alleviate those issues!

FRIENDLY REMINDER!

WITH THE TEMPERATURES DIPPING BELOW ZERO- REMEMBER TO SHUT OFF THE WATER TO YOUR OUTDOOR TAPS!

CHAMBERSPLUMBINGANDHEATING.CA

"This year, we have proudly supported local businesses & charities. Our commitment will always be to our customers, but we also believe in supporting businesses & charities in our communities, whenever & however we can."

- Brett Chambers
Owner & Operator of Chambers Plumbing & Heating

Plumbing joke of the month:

Q: How did the Plumber feel after giving blood?

A: Drained.

CHAMBERS PLUMBING & HEATING DO'S & DON'TS:

1- DO

Please leave a review for us on our Google page! It helps us grow our business & we would be so grateful!

2- DON'T

Forget to keep our number nearby in case of an emergency- especially for furnaces!

3- DO

Shut off your outdoor taps before it gets too cold! Even with a mixing valve, having an isolation valve helps turn the water off to the source!

4- DON'T

Put high fibre materials down your garbage disposal- not only can it burn out the unit, but your pipes can clog!
