# WHO WE ARE AT OUR CORE

*In this edition of Chambers Plumbing & Heating: The Plumbing Chronicles- we discuss who we are & what drives us to do what we do for our community.*

## HOW WE CAME TO BE & OUR PROUD HERITAGE

## “BEING STRONGER, TOGETHER.”

### EVERYONE HAS A STORY...

..To tell. Their history, how they became the people they are today, & who they really are at their core.

To be a part of a lineage of folks who put people above profits, is something we are immensely proud of.

Our mission is to carry on their legacy of providing essential, professional services, without sacrificing our compassion for taking care of those in our community.

When you think of the word “**community**”, what comes to mind?

Is it just a place that you live in? Is it just a word to describe the town you call home? Or does it have a deeper meaning?

We are incredibly proud to have built our company from the ground up in the place where we live, where we raise our kids & where we truly feel our home is.

Our sense of community is an integral part of who we are as people, & as a company- & we come by it honestly. One of the owners comes from a long line of people who didn't just help serve their community, but made it their mission in life to ensure it thrived.

In a small town in Kipling, Saskatchewan in the 1920's, a family settled & opened a general store. Farmers & towns people frequented it, supporting their local proprietor. That family didn't just sell their wares for generations. When farmers & townsfolk fell on hard times due to failing crops, inclement weather or personal tragedies, they quietly forgave debts. Never asking for accolades or recognition, but to see their community continue on & be successful. When a business does what they can to contribute to their community's success & happiness- it stops being just about profits, & about what really matters- *being stronger together.*

**To be a part of a lineage of people who put the well being of others front & centre makes us feel immensely proud.**

From store front owners, to an executive director of local food bank, our heritage is rooted in supporting those around us.

We couldn't be more grateful for all of the support this community gifts to us, & we promise to continue on in our family's legacy in caring for our community members in as many ways as we can.
