

# MAP ADDENDUM

**Attention AZPT riders:** The southern portion of Segment 6 runs through an area with multiple trails leading to private property. To stay on the correct route and avoid trespassing, please reference this addendum when planning your ride. This Addendum affects the map and navigation details on pages 80-85 of the Atlas V2.

Stay on marked trails and respect private property—trespassing harms land access for everyone. Let's keep the off-highway community responsible and ensure these trails stay open for future riders!

We highly recommend using mobile navigation while riding the trail to ensure accuracy. For the latest GPS tracks, visit our website:
