Mission Statement

Sandy's Message: Peace, Harmony and Community

At conference this year there were several discussions on ways to build our community. One panel discussion focused on building diversity in our community. Another suggestion was every other year, rather than our usual teacher's conference, we have a conference that includes students. These would be differentiated from our Annual T'ai Chi Chih Teachers' Conference as a T'ai Chi Chih Community Conference.

This would be a big change as we have had a teacher's conference every year since 1985 (except 1987). Justin felt it was important for teachers to stay connected, refresh their practice, and rededicate their intentions. But with the expense of travel and accommodations rising it is difficult for teachers who usually attended every year to continue to do so. This may be a natural opening to try something different. It is worth exploring a new direction.

Having Community Conferences which includes students offers a new opportunity for students to deepen their understanding and experience with T'ai Chi Chih. It may spark in them a desire to become a teacher. The Community Conference would still support and encourage teachers to attend as well as students.

_It is important to have your voice heard on this idea so a short survey has been created. Please go to the link below. Students may answer questions #3, 4, 7, 8.

Justin's Insights

KEY POINTS TO TCC MOVEMENTS

Attitude: Never do T'ai Chi Chih carelessly at any time. It is worth doing fully.

Accuracy: Most important in teaching is to see that students move correctly. Show the optimum way to do it (allowing for individual ability level). To become an accredited teacher, attitude AND physical capabilities are necessary.

How to Move: Flowing effortlessly (with the effort of no effort) as though swimming through heavy air. Flowing from tan t'ien...without muscular effort...elbows close to sides...more with wrists. TCC is not a series of arm and leg movements. Be sure the concept of "How to Move" is clear.

Leg Action: After awhile, a lower TCC is preferred. Emphasize (in the side step) that the heel (touches) first and feet remain on the ground, (legs) almost spreading apart. Also emphasize the importance of bending the knees particularly at the end of movement (in resting pose).

Yinning and Yanging: The most common fault is coming to stiff forward or backward knee - the result: bouncing up and down occurs.

Emphasis: Remember all movements where the 60-40% (mental) emphasis/force of no force is applied (e.g. Carry the Ball, Push-Pull, Pulling in the Energy, Taffies).

Chi Reflections

Where is truth?

*There are thousands upon thousands of students
who have practised meditation and obtained its fruits.*

Do not doubt its possibilities because of the simplicity of the method.

*If you can not find the truth right where you are,
where else do you expect to find it? ~Dogen*

The Wise Teacher

*The teacher who is wise does not bid you to enter the house of his wisdom but leads
you to the threshold of your mind. ~ Khalil Gibran*
