UPDATE

Jan 30, 2023

THE CLOCK IS TICKING....!

...as of Monday, January 30th!

.....Field Cleanup Sat Apr 22 - Event Sun Apr 23.....

This year it looks like we might have more entries to the “world famous” SkyKnight Winter Build/Rebuild event! Take a look at the progress our members are doing! See more at our Facebook page at <https://sky-knights.org/>. Haven’t started yet? There is still time...but running out fast!

BE SURE TO BOOKMARK OUR FACEBOOK SITE ON YOUR COMPUTER!

There often is new information and alerts placed that are not necessarily covered on the periodic Updates. You will find it under Portland SkyKnights Radio Control Modeling Club on Facebook. Or you can go to our website and click the Facebook icon on the left side of the margin.

Winter Build/Rebuild is Going Great!

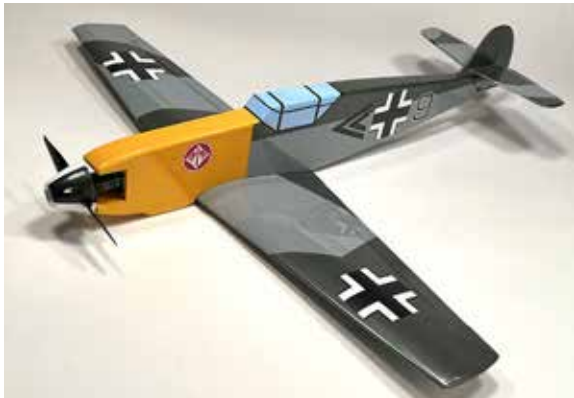

The long, dark winter nights are getting shorter but still perfect for starting a build project or repairing one of your “accidents” from previous years! For those of you who are new to this fun event, each year Gregg Marshall hosts a fun contest where those flyers who love to build, put together and in some cases rebuild the airplane of their choice. Then, on April 23rd at our annual opener, you will give it a “maiden flight” with others who have entered their places to see how (or if) it will fly. This is an incredibly fun event and the Board makes it even better by sometimes offering up a kit or two as part of a raffle open only to pilots of the winter build/rebuild planes. Get your kits, plans, glue or imagination going and build!!!

1. Can be a new build from a balsa kit **or** a **rebuild** from a previous hard landing. Must post at least one picture of the build on the SkyKnights Facebook page and must be a current picture.
2. Previously started kits okay, but must be less than 50% completed/not covered when picture is posted.
3. Can be any size or type of kit (Locke/tab, die cut, scratch build)
4. Can be glow, gas or electric
5. Open to any AMA member
5. Must be completed prior to AND flown at the Spring 2023 maiden party

We will have a maiden party at this spring 2023 picnic. The aircraft must take off, make at least one lap, and then land-controlled.

A special addition to this year’s build program will be over a dozen “one-o-nine” models being built by members are going to compete for a crazy “warbird” fun fly-in. Be sure you don’t miss the fun event! Bring your family to watch!

Indoor is a BLAST! Every Thursday evening at the Mountainview church. Members with AMA can fly FREE!
