

President Trump is back in the White House!

We had so much fun watching all of the Inauguration Day festivities. And President Trump didn't waste any time getting back to work!

Meanwhile, in Austin, the legislative session started nearly two weeks ago, and the Texas House has met for just a few hours *total*. **We're certainly frustrated with this slow start, and we're chomping at the bit to get the legislative ball rolling.**

Read more about what Brian is working on this week below!

Texas House Passes Democrat Empowerment Act

Yesterday afternoon, the Texas House FINALLY had the chance to vote on the House rules. These rules dictate pretty much everything the reps are allowed to do during the session. They're usually voted on within the first few days of the session beginning, but that wasn't the case this year. In fact, Brian didn't even receive a copy of the rules until Thursday morning around 4 AM. **He was expected to read over 200 pages of language and be ready to vote on one of the most critical votes of the session a few hours later.**

Unfortunately, as our team was wading through the rules, we found a disturbing update: While Democrats will not be allowed to Chair any committee, they will be appointed as the Vice Chair of every single committee **AND are given the same power as chairman**. Activists, like you, have been fighting for several years to ensure Republicans, the majority party, *actually* can accomplish the will of the voters without giving Democrats the chance to block key legislation. Democrat Chairmanships were a sneaky way for liberal Republicans to kill bills hence the fight to get rid of Democrat chairs.

Well, the new rules, are actually much worse. In fact, Brian dubbed these rules the Democrat Empowerment Act of 2025. Watch more below. These rules were approved by more than 100 representatives, including over 40 Republicans. Brian was a proud "NO" vote!

Brian Attends Trump's Inauguration

Brian and his lovely wife, Tara, were thrilled to attend so many inauguration festivities earlier this week! We're all so excited for President Trump to be back and are hopeful for all the things he plans to accomplish.

While Trump got right to work tackling many pressing issues, we aren't seeing the same thing in Texas. Trump is restoring sanity, but elected officials in Texas are far behind. **Should you be worried?** We have plenty of reasons to be hopeful, but we also have PLENTY of work to do. Brian was on WBAP in Dallas this week to discuss some of these issues, listen to it by clicking on the button below!

Urge Governor Abbott to Prioritize Liberty

Last week, we shared Brian's Texas First Liberty Agenda. The items on the agenda are Brian's priorities to protect your freedom and keep the government *out* of your life and make Texas, Texas Again.

Now we're asking for your help to bring attention to these *critical* issues. Brian is asking Governor Abbott to add the Liberty Agenda to his list of emergency items. If Governor Abbott does this, then the legislature can pass these bills ASAP.

If he does not add these items to his emergency items, we risk running out of time to get these bills passed. Legislators can only pass bills on the Governor's agenda for the first TWO months! The session is only five months long. Time is short, we must act now.

Will you stand with Brian and ask Governor Abbott to prioritize the Liberty Agenda by signing our petition today? After you sign, make sure you share it with your friends so they can sign it, too!

Watch the Texas House

When the Texas House is in session, you can watch everything happen live! Watching the House floor or a committee hearing is a way for you directly get involved in the session and find out what's going on without any news or media filter.

Click on the button below and **bookmark the website** so you can tune in every day! Who knows - maybe you'll see Brian fighting for you or some shenanigans by some of his colleagues. We've already seen PLENTY of shenanigans in the first 10 days of the session, make sure you tune in so you don't miss anything else!
