END (CW) (CW)

John Taranowski reported on an abundance of information he had found on Bb Hazardous Waste. He has met with the Ashland Co. Farm Bureau, Wayne Co. Commissioners, Ashland Co. Emergency Management and Andrew Gall with the Ohio EPA; his information is very compelling. This compelling information is leading to the conclusion that the EPA has a very tight grip on what goes on in this state. However, it is still important to have a section in our zoning resolution on the handling of these products. John reported, he has attended several zoning work sessions and they are working on this issue. Thank you for all of your work on this issue, John.

New Business:

Trustee Scott introduced everyone at the meeting to the new used truck.

Trustee Kay talked about the Lake Erie Bill of Rights and how it might impact Jackson township. Everyone felt this bill would not pass in the special election the next day and the issue was dropped.

Trustee Scott asks if any questions on warrants or financial reports, as there were none, Trustee Jim made a motion to accept the warrants and financial reports, Trustee Kay seconded and Trustee Scott in agreement. The previously prepared checks were signed and placed in box as requested.

With no further business before the board the meeting was adjourned at 8:00 pm with a motion from Jim, Kay 2nd and Scott in agreement.

Respectfully Submitted by Trustee Kay Wright
