I believe in year-round training to reinforce my ball control, boost my creativity on the games, and excel in my game decision making. I am a go-getter and as a defender no one passes through me.

Strong & Dynamic Play: Emphasis in strong defense and attacking techniques. Demonstrate great ball dominion to make more moves and create openings or better situations for passes.

Versatility: great cognitive skills that allows for fast passes, I can move from midfielder to defender which permits me to be more flexible and knowledgeable in any area of the field.

CLUB EXPERIENCE
