

# SAVE OUR STATE PARKS

## SIGN THE PETITION TO SAY NO TO DEVELOPMENT IN OUR WILD AREAS

Link to Petition

Plant Your Roots is supporting actions to stop the Florida Department of Environmental Protection from allowing *pickleball, golf courses, and resorts on State Lands* set aside for conservation and resource based recreation such as swimming, kayaking, and fishing. The development of manmade activities will deteriorate ecosystems, wildlife habitat, cause additional flooding issues, reduce water quality, and add to air pollution.
