

# Driving Experience for Throwback IndyCar Series' 2020 Champion

---

**Huntsville, Alabama – 4/1/2020**

Nine Four Motorsports announces that we will offer an on-track driving experience to the 2020 Throwback IndyCar Series Champion.

“At Nine Four Motorsports, we have always worked to connect Esports Racers with the wheel-to-wheel racing that we offer, but we have struggled to do it effectively. Awarding a Driving Experience to the 2020 Champion is a next step to trying to bridge the gap between simulation racing and wheel-to-wheel racing,” said Brian Peele, Owner of Nine Four Motorsports.

Nine Four Motorsports focuses on developing both drivers and crew members. A racer given the right equipment and knowledge to achieve his/her individual goals will be more likely to succeed while enjoying the journey of achieving those goals. No two drivers are alike; therefore, we work with each driver to tailor a program that meets the goals that he/she has in motorsports. This Driving Experience will include the same coaching, data review, in-car video, and equipment that each Nine Four Motorsports driver receives.

“I’ve raced with Nine Four Motorsports at COTA and VIR. I found that the effort I put into preparing through Esports made a tremendous impact on lowering my learning curve at the track. Combine that with the support offered by Nine Four Motorsports, and I had two awesome weekends on track. I believe the Season Champion is going to be blown away by this Experience. Frankly, I want to win it!” said Brandon Shown, current Throwback IndyCar Series driver.

In order to be eligible for the Driving Experience, all drivers must be registered. Registration is located on the Nine Four Motorsports website and must be completed before the final race of the 2020 season.

###

# **NINE FOUR**

*Motorsports*

Nine Four Motorsports began in late 2014, with wheel-to-wheel racing starting in 2015. Although a young business, we have been in the motorsports industry for over 20 years. Owner Brian Peele leads a team with experience building, maintaining, and driving at all levels of IMSA, NASCAR, Rally, and SCCA. In addition to having extensive knowledge in various motorsports platforms, the team comes with multiple individuals knowledgeable in driver coaching with organizations like Richard Petty Driving Experience and Skip Barber Racing School.

Nine Four Motorsports understands and appreciates the time and attention needed to be safe and have fun on and off the track. Visit our website, [ninefourmotorsports.com](http://ninefourmotorsports.com), to register, and for more details on how we can support your motorsports needs.
