

# Steel Workbed

This is the classic truck bed we have always built. Gooseneck hitch, receiver hitch, and hinged side rails are all standard. This bed passes through an abrasive blaster, is then acid etched, primed and powder coated. This bed can be outfitted with optional toolboxes to make this a very effective upgrade to your truck.

# Bradford

## Steel 4 Box

The 4Box is the working model of our skirted beds. It has a 2" fender skirt and a wide deck giving you a more finished look without losing deck capacity.

## Aluminum 4 Box

A working man's 4Box with extra tie down features to secure your cargo. A tread plate body to resist the paint damage that hard work and hired hands will surely subject to it. Shown with optional aluminum crossbody toolbox.

## Steel Regulator

The Aluminum version of our 4Box. All the same features of our steel model but at a big weight savings, which makes this a great choice for your "go to town truck."

# Steel or Aluminum Crossbody & Underbody Toolboxes

## Stepside

Bradford Step Side (steel) Standard Features Include: - Powder coated black for a good shine and an easy-to-wash durable surface.  
- 4" Flip-Down Sides on Greaseable Hinges -Sealed Beam Lights  
-30,000 lb. Capacity Recessed Gooseneck Ball. The Stepside can be ordered with optional Aluminum doors. (not shown here)

Crossbody tool boxes are perfect for a chainsaw, long handles, cattle prods, and whatever else requires a little length. It has a small tool tray in the top driver's side.

In steel; and aluminum, underbody toolboxes add utility to your workbed. Boxes come with mounting hardware and are easy to install. Available in many sizes, all built to look right on your workbed.
