

RINOs Mess with Kansans

Bad actors in Republican leadership requested the Kansas State Senators and Representatives to support medical tyranny and job loss.

"It's a sad day when our own Republican leadership sends out emails discouraging Republican lawmakers from signing on to a constitutional petition that would help save the people's jobs. Our intent in bringing this petition is to unite and stand with the people of our state according to the oath that we took to protect and defend. My loyalty isn't with any party, it's with Liberty to do my job as the Representative from District 4," Representative Trevor Jacobs, Fort Scott, said.

The petition calls for an October 18th, 2021 start date. Although the petition falls short of the 2/3 required for the Governor to call a special session, the group hopes that Kelly will also realize her duty to defend and protect regardless of political lines and choose to move forward on her own accord with a special session.

These brave men and women **must** to be voted in again. They protected our best interests in the face of opposition from Republican leadership. They requested a Special Session from Governor Kelly to protect our interests when the other RINOs refused to. Everyone whose name is not on this list needs to be replaced immediately. Our lives, our families' and our children's futures, are hanging in the balance.
