

Story:

For several years Southwest Virginia and Southern West Virginia has had massive hardships thanks to government. When the Government shut down all fossil fuel power plants one winter without warning 1000s went without power, 100s died, and no one seemed to care. Those that remained did speak up, but that voice fell on deaf ears. Then when democracy failed, and the cities started having issues then came help ... but not for Appalachia not for those that had the most hardship.

The people fought back raiding supplies and cities. The Government had enough and has sent in the National Guard and a select group of Special Forces trained in Anti-Terrorism to calm and protect the people but not all the people want to be calmed

The Stage is set for a small town in Virginia with a river that runs thru it....

They most of the time are in a set area for a play to come to them and they will get a hold of Admin. The first concern is safety and reporting to Admins with they see in the games and how players are acting.</p> <p>In game Refs. Players are always embedded into all units that report to Admins the coming and goings of the day. Some of these refs never say a word to players unless it's a safety issue. Others will be more direct and give warning. They police their own side more than another team.</p> <hr/> <p>In Most Games the CO of your side is also a Full ref reporting directly to Admins</p>	<p>No Yelling Call your Hits or Cussing other players. Important

All Units have reasons to be there.

Talk and check in with your Unit Commander – Get Radio or ways to report information in.

Having something to keep time for will be important.

Allowed Pyro only. Nothing from Fireworks store that needs to be lit.

There will be Phases of missions. Keep your Leadership close. The Phases are set by Leadership. What you Do Friday matters. What you do Saturday matters for Sunday.

As you lose troops that matters and your goals and strategy change. We account for that. EVERY Trooper on the AO matter to the last man unless you don't care to check in.

SPAWNS will change based on event Session.

Game Setup (what to expect)

The Battlefield will be a series of Direct Action Missions that effect what could happen next and through the weekend.

We hope to maximize the AOs and use as much as Possible and the assets that we and the players bring.

Many of these will be 60, 90, and 120 minutes. The amount and type of missions will be based on those ready and numbers.

Recon, Player Hunting, Protecting, Key Locations, Clearing, Extraction, are many of the things you could expect and see.

Spawns will change based on the Mission and location in the AO.
