

*Black Start: A black start is the process of restoring an electric power station or a part of an electric grid to operation without relying on the external electric power transmission network to recover from a total or partial shutdown.*

*Normally, the electric power used within the plant is provided from the station's own generators. If all of the plant's main generators are shut down, station service power is provided by drawing power from the grid through the plant's transmission line. However, during a wide-area outage, off-site power from the grid is not available. In the absence of grid power, a so-called black start needs to be performed to bootstrap the power grid into operation.*

#### Story

"Everyone has been saying for years, the power grid is old and outdated enough to be taken out by squirrel. We don't believe it was a squirrel to make the east coast go dark, but something did. That was 6 months ago. Radios work when you have power, water is hit or miss. Heard stories of power stations trying to come back online or supply power to local towns and boom. Most of the resources are going into the Nuclear Power Plants like ours.

Government cut the power back to just 1 mile of Plants to 'protect' the grid. That's crap and all the people that have come because of the Light know it's crap too. So people look at Light as hope, all I see when I look out the window is sick and dirty people hoping for their homes to have the lights come back on. The way it's going we are still months away if the government will let us.

If it wasn't bad enough the National Guard is coming thanks to those annoying, See the Light people. They warned everyone if the government came they would turn this into a war zone. Looks like there will be lights but from bombs, vehicles, and gunfire.'

Black Ops Plan – Disruption

Spec Ops Plan – Information

Ranger Plan – Classified

Plant Workers / Security– Keep the Lights on no matter what!

Important

All Units have reasons to be there. Killing Locals and having the plant melt down isn't one of them.

Talk and check in with your Unit Commander – Get Radio or ways to report information in.

Having something to take pictures or proof of will be important.

Having something to keep time for will also be important.

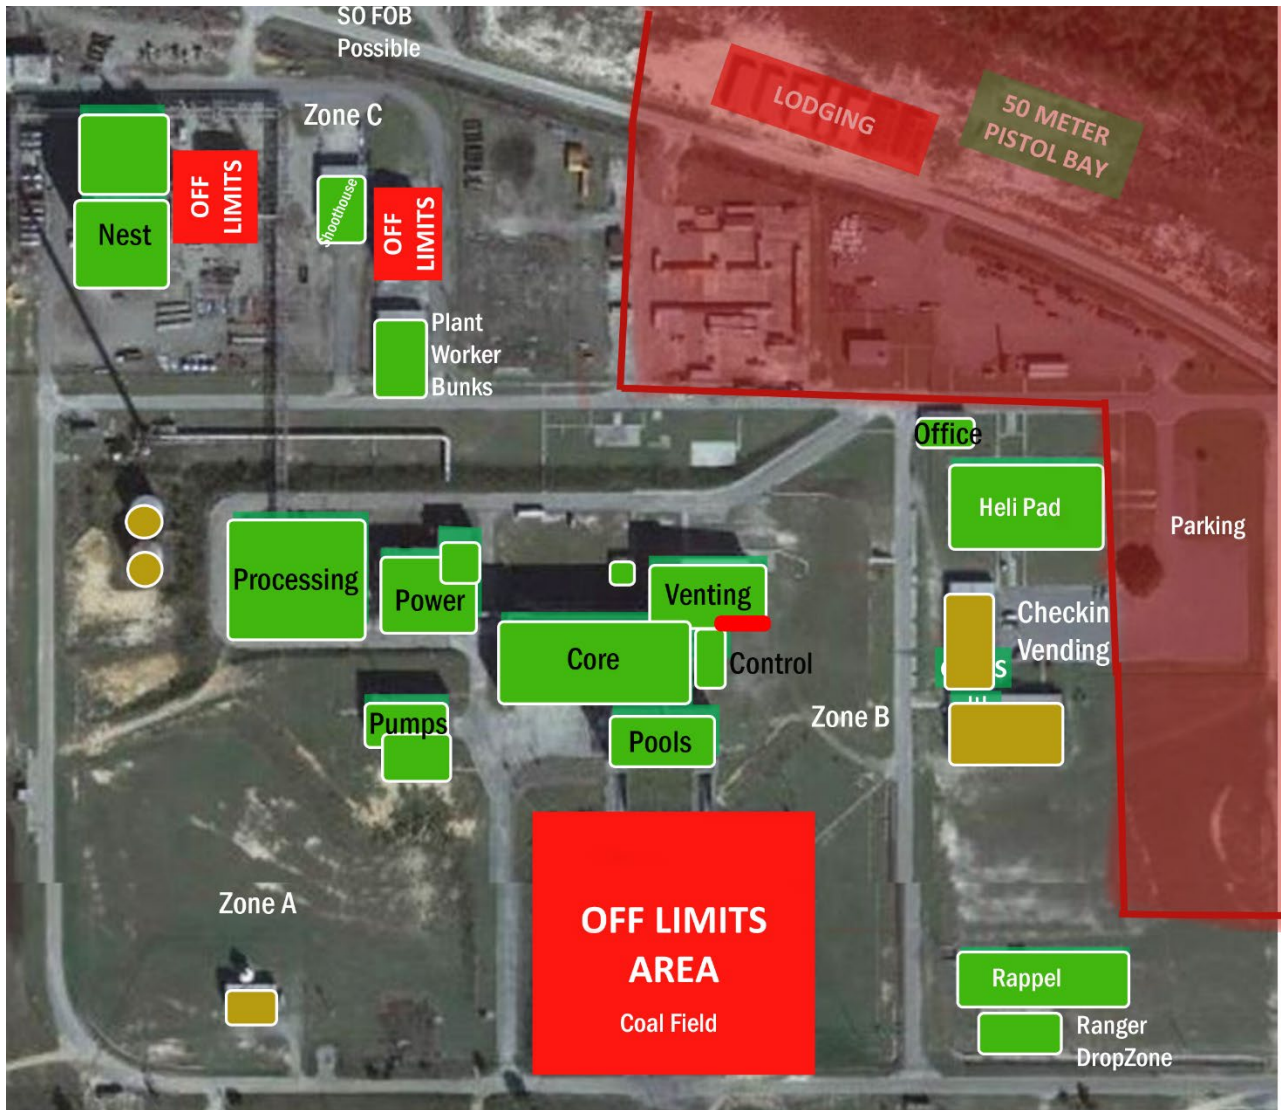

Radiation Zones you can not use medical or heal in.

Only EG25 Flame (Black) and Gas (yellow) allowed smoke inside.

Allowed Pryo only. Nothing from Fireworks store that needs to be lit.

There will be Phases of missions. Keep your Leadership close. The Phases are set by Leadership. What you Do Friday matters. What you do Saturday matters for Sunday.

As you lose troops that matters and your goals and strategy change. We account for that. EVERY Trooper on the AO matter to the last man unless you don't care to check in.
