Unit 15 Worcester Road Industrial Estate, Chipping Norton, OX7 5XW

recyclelab

RecycleLab's Decontamination Station is a compact, easy-to-implement unit designed to support the chemical disinfection of single-use plastic lab consumables, making them suitable for recycling.

Benefits include:

- Enables more plastic waste to be safely recycled
- Simple setup that integrates into existing lab workflows
- Reduces the volume of lab plastic sent for incineration

We offer the Decontamination Station in three distinct sizes, each designed to suit different areas and workflows within the lab.

Small Decontamination Station

recycle lab

Large Decontamination Station

Key Features

- Manufactured from stainless steel
- Designed to sit beside sink or in prep room
- Size: 32.5 cm
- Price: £47.49
- SKU: DEC-LAR-325

Naturama

Why we recommended Naturama:

Naturama is an environmentally friendly high level chemical disinfectant which is produced from natural ingredients. This means that it is less harmful to the environment compared to other chemical disinfectants, however it still ensures log-4 disinfection.

Key Features
