

# RecycleLab's Subscription Service

**Simple. Sustainable. Cost-Saving.**

At RecycleLab, we know that managing lab plastic waste shouldn't be complicated, or expensive. That's why we've created a flexible subscription model to make recycling easier for science and healthcare labs across the UK.

## How it works

Choose a bimonthly (every 2 months) subscription that suits your lab's needs. The more bins you collect, the more you save!

Package	Bins per 2 Months	Discount	Price per Bin	Total Price	Monthly Minimum Collection
<b>Small</b>	10 bins	5%	£24.23	£242.25	5 bins/month
<b>Medium</b>	15 bins	10%	£22.95	£344.25	7 bins/month
<b>Large</b>	20 bins	15%	£21.68	£433.50	10 bins/month

Standard rate per bin: £25.50. All prices include collection, processing, and recycling and excl. VAT.  
Prices quoted are valid through to 31<sup>st</sup> December 2025.  
Delivery charges of bins apply for each shipment.

## What's included?

- Bin delivery & collection
- Responsible recycling of accepted lab plastics
- Waste data tracking & reporting
- Support from our friendly team

## Who is this for?

- Science and healthcare labs generating regular volumes of plastic waste
- Institutions with sustainability goals
- Teams looking to simplify waste management

## FAQs

### **How do we pay for the subscription service?**

RecycleLab offers two payment options:

1. Receive an invoice after your recycling bins have been dispatched.
2. Set up a direct debit for automatic payments.

### **How do we receive shipping labels to send full recycling bins back?**

We'll email your shipping labels on the same date each month. Simply attach them to your full bins and our courier partner will collect them.

### **How often will we receive recycling bins?**

Bins are dispatched bimonthly on the same date. The number of bins you receive depends on the subscription package you choose.

### **Can we cancel our subscription?**

Yes — you can cancel your subscription at any time, with no cancellation fees.

### **Can we change our subscription package if our waste volumes change?**

Absolutely. You can adjust your subscription at any time to suit your lab's needs.

### **What if we can't guarantee a set amount of plastic waste each month?**

This service works best for labs with consistent waste volumes. If you can't meet the minimum monthly bin numbers, we'll switch you to our regular flexible service model so you only pay for what you use.
