### **3 Details of the tenancy**

The tenancy is subject to the Allotment Acts 1908 and 1950 and also the following conditions. You agree with the Association to observe and perform the conditions set out below;

#### **3.1 Alienation**

- 3.1.1 Tenant shall not sublet or assign or part with possession of any part of the allotment plot. Should the plot become too large to manage easily arrangements can be made to sub divide the plot and sign a new lease. It must be noted here that sharing an allotment with someone else does not confer any rights to that person, the tenancy remains with you and on its surrender is offered to the next person on the waiting list.

#### **3.2 Use and conduct**

- 3.2.1 The Tenant shall use the plot as an Allotment and Leisure Garden only, wholly and mainly for the production of vegetables, fruit or flower crops for consumption or enjoyment by the Tenant and his/her family and for no other purpose and not for profit.
- 3.2.2 The Tenant shall not enter onto any other plot at any time without the express permission of the plot holder.
- 3.2.3 Any children that accompany the plot holder or any persons accompanying the plot holder may not at any time enter onto another plot without the express permission of that plot holder. The plot holder has full responsibility for the actions of children and others entering the site with his permission.
- 3.2.4 The Tenant must not cause any nuisance or annoyance to other plot holders or neighbouring residents of the allotment site and must conduct themselves appropriately at all times.

#### **3.3 Cultivation**

- 3.3.1 The Tenant shall keep the allotment reasonably free from weeds, properly cultivated and in a good state of fertility all year round. Properly cultivated means that all of the plot is being worked all year round. It can be noted here that bases for any permitted structures (glasshouses, sheds and poly tunnels), water butts and compost heaps must be sited within the plot boundary and these areas are exempt from this requirement to cultivate.
- 3.3.2 Within the first three months of the tenancy 25% of the plot must be under cultivation with crops. This is discretionary on the condition of the plot at the time of tenancy agreement and time of year the plot is let. After three months it must be seen that the plot is regularly tended to, and showing signs of progress. The remainder of the plot must be under cultivation with crops within twelve months.
- 3.3.3 The Tenant must notify the Association of any change in circumstance which might temporarily prevent cultivation of the plot such as prolonged holiday, accident or illness.
