NEW X-FACTOR® 11-GAUGE FABRICATED DECK Inspired by our commercial machines, this all new 4 1/2 inch-deep steel deck optimizes airflow, and the reinforced sloped nose allows more room for grass to stand up ahead of the cutting chamber for our best cut ever on a residential machine. Caged anti-scalp wheels make your lawn less susceptible to damage from minor bumps and scrapes.

ONE-PIECE, FULLY-WELDED TUBULAR CHASSIS This all-new chassis displays strength and durability with its closed tube frame rails and fully welded construction techniques influenced by our commercial applications.

HYDRO-GEAR® ZT-2800® TRANSAXLES Serviceable transaxles have optimized cooling to ensure smooth running for years to come. Integrated service ports on the internal reservoirs and a replaceable filter allow fluid changes for easy maintenance.

NEW TALLER AND WIDER SEAT WITH PADDED ARMRESTS Ready for the long mow! This seat is 22" tall to provide more back support and is mounted on a taller seat base to make it easier to stand up and sit down. Padded armrests deliver extra cushion to keep your arms more comfortable.
