## Bloodgood Japanese Maple

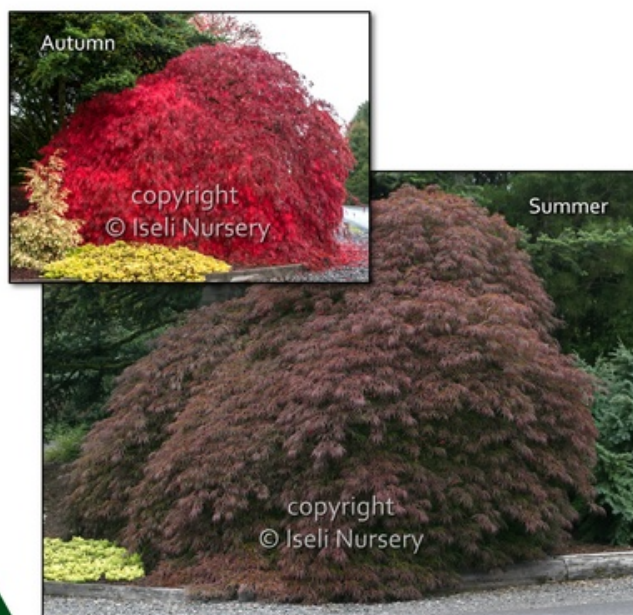

*Acer palmatum*  
'Bloodgood'

A deservedly popular Japanese Maple, this robust, upright tree has large, deep red leaves that push bright red in spring. Leaves mature to deep, rich purple and retain their color well, even during the heat of summer. Crimson fall color and scarlet, winged seeds add extra interest to this sturdy garden standard.

Garden Size - 20'H x 15'W  
12-15 inches / year  
Broad Upright - Zone 5 - Red  
Sun to Partial Shade

## Crimson Queen Laceleaf Maple

*Acer palmatum dissectum*  
'Crimson Queen'

Sculptural, cascading branches and finely dissected, colorful leaves make this classic selection one of the finest of the deep red laceleaves. Foliage emerges bright crimson, deepens to burgundy in summer and finishes with brilliant scarlet in fall, maintaining its color despite summer heat and humidity.

Garden Size - 7'H x 10'W  
6-12 inches / year  
Cascading - Zone 5 - Red  
Sun to Partial Shade

## Orangeola Laceleaf Japanese Maple

*Acer palmatum dissectum*  
'Orangeola'

'Orangeola' has bright red-orange new growth that continues on the long cascading shoots even as the maturing foliage fades to a deep reddish green in summer. Fall color is a brilliant orange-red. It's strongly pendulous branches produce a superb spreading habit and will make a colorful centerpiece for your garden.

Garden Size - 7'H x 10'W  
6-12 inches / year  
Cascading - Zone 5 - Red/Green  
Sun to Partial Shade

## Red Dragon Laceleaf Maple

*Acer palmatum dissectum*  
'Red Dragon'

Possibly the very best laceleaf maple, 'Red Dragon' has bright red new growth that turns dark purple-maroon and maintains its color through hot summer months. Autumn brings on flaming scarlet foliage marking the end of the growing season.

The vigorous, compact tree grows slowly into a beautiful, cascading mound.

Garden Size - 6'H x 6'W  
3-6 inches / year  
Cascading - Zone 5 - Red  
Sun to Partial Shade

## Coral Bark Japanese Maple

*Acer palmatum*  
'Sango kaku'

The Coral Bark Maple is popular for its flaming, coral-red bark that stands out against drifts of snow in winter. The leaves emerge in spring with a flush of bright, yellow-orange and change to soft green for summer, which provides a sharp contrast to the glowing, coral bark. Autumn color is bright tones of yellow, gold with hints of scarlet.

Garden Size - 20'H x 15'W  
12-15 inches / year  
Broad Upright - Zone 5 - Green  
Sun to Partial Shade

## Seiryu Laceleaf Maple

*Acer palmatum dissectum* 'Seiryu'

This green Laceleaf Maple, the only upright one offered by Iseki Nursery, is a vigorous tree with finely dissected leaves that are tolerant of heat. In fall, the foliage turns to a wonderful display of strong gold, light yellow, and crimson. Although upright, the tree maintains a compact stature, and its feathery leaves, which hold up well to heat, bring about dappled sunlight.

Garden Size - 15'H x 12'W  
6-12 inches / year  
Broad Upright - Zone 5 - Green  
Sun to Partial Shade

### Shishio Improved Japanese Maple

A small multi-branched shrub-like tree with a wide range of foliage color throughout the year. Spring foliage emerges a brilliant pink-red with touches of salmon and bronze. Leaves turn to green for summer before showing off in fall with shades of red and orange. This tree does well in containers or planted in the ground, and makes an excellent bonsai candidate. Shishio Improved Japanese Maple will bring a stunning pop of color to any corner of the garden!

- Scientific Name: *Acer palmatum* 'Shishio Improved'
- USDA Zone: 5 - 9
- Average Height: 10'
- Average Width: 4'
- Sun Exposure: Partial shade

## Tamukeyama Laceleaf Maple

*Acer palmatum dissectum*  
'Tamukeyama'

This extremely vigorous cultivar has survived the test of time. Long, cascading branches produce spring foliage that is bright crimson and summer foliage that turns dark, purple-red and retains its color even in hot, humid summers. Autumn brings scarlet tones to the foliage, which is bold and more coarsely dissected than other selections.

Garden Size - 7'H x 10'W  
6-12 inches / year  
Cascading - Zone 5 - Red  
Sun to Partial Shade

## Viridis Laceleaf Maple

*Acer palmatum dissectum* 'Viridis'

The cascading, mounding form of 'Viridis' displays the classic branching of a Japanese Maple. Its bright green, delicately dissected leaves turn golden yellow and red in fall. The well-known, green, weeping cultivar handles full sun or shade, and it produces vigorous growth but stays compact.

Garden Size - 7'H x 10'W  
6-12 inches / year  
Cascading - Zone 5 - Green  
Sun to Partial Shade

## Grape Leaf Full Moon Maple

*Acer japonicum*  
'Vitifolium'

True to the name, the leaves of 'Vitifolium' resemble grapevine foliage, but they appear on a tree with a stiff, spreading branch structure. The soft, fluffy, light green leaves from early spring through summer, change in fall to a spectacular display of orange-yellow and bright red. Early, showy, red and white flowers add extra ornamental interest. Tree performs best with filtered or full sun in rich, moist soil.

Garden Size - 20'H x 15'W  
12-15 inches / year  
Broad Upright - Zone 5 - Green  
Sun to Partial Shade
