

Dogwood Trees, 2023

Chinese Dogwood

The Chinese Dogwood offers splendor year-round. It is a strong bloomer throughout the summer with oval, pointed dark green leaves with large, creamy-white flowers that bloom in June. In the autumn, it grows hanging red fruit while the leaves turn orange-red to red-scarlet shades for even greater appeal. In the winter, mature trees have bark that turns an attractive mottled, exfoliating, tan and gray. Plus, this heavy-fruiting dogwood will attract lots of wildlife, including butterflies and birds.

It grows 30ft tall x 20-25ft wide.

Plant in full sun to part shade.

Hardy to -20 degrees plus

Eddie's White Wonder This unusual hybrid is a cross between our native Western dogwood, *Cornus nuttallii*, and the Eastern North American species, *Cornus florida*. The large flowers open in early spring and have broad overlapping bracts (false petals) that are gleaming white and abundant. The tree has a narrow frame and distinctive lax layered branching habit that works well in the garden and shows the blooms to their best advantage.

-The growth habit of this tree is 20ft tall x 15ft wide in 10 years but can reach a height of 30ft tall x 20ft wide at maturity.

-Plant in full sun to light or open shade
-Hardy to 0 degrees

Dogwood Trees, 2023

Cherokee Brave

Big blossoms have an interesting red glow that fades to a white center. Blooms earlier in the spring than many other dogwoods and they also leaf-out earlier shaking off the gray days of winter. Come fall the leaves turn a beautiful shade of maroon that really lights up the garden. After the leaves fall you're left with red berries and soft grey bark that is striking in the winter landscape and provides food for birds and other wildlife.

Grows to 20 - 30ft tall x 25 - 30ft wide in full sun to part shade

Hardy to -20 degrees

Pink Flowering Dogwood

As the days lengthen and warm, creamy pink blooms with subtle highlights of red cover the tree and announce the arrival of spring.

When summer arrives the upward branching and deep green textured leaves provide an elegant and graceful appearance among larger straighter shade trees, evergreens, or the sharp geometry of your home. Swirling scarlet and purple leaves add to the color show in the fall, along with brilliant red berries that attract songbirds through the early winter.

Grows 15 -30ft tall and wide in full sun to part shade

Hardy to -20 degrees

Dogwood Trees, 2023

Prairie Pink

Soft pink flowers appear in spring before the thick glossy leaves that are tatter resistant. It has an upright spreading growth habit. Turns a beautiful orange-red to purple-red in fall.

Grows 15 - 20ft tall and wide in full sun to part shade.

Hardy to -20 degrees

Satomi Dogwood

The distinguishing characteristics of this dogwood is a gentle layered form, blooms that open white and transform into a luxurious pink, and red edible fruits. Kousa dogwoods have a later and longer bloom time and the flowers will last around 6 weeks from June to July. In the fall the fruit ripens and leaves turn a deep purplish red. The mature height of this tree is 15 to 20 ft.tall and wide

Grows in full sun to part shade

Hardy to -20 degrees

Dogwood Trees, 2023

Scarlet Fire Features unique, dark pink to fuchsia blooms that span 4" to 5" (color is light pink for the first 1–2 years as the tree becomes well-established; best color results from placement in fertile soil and full sun) On top of its gorgeous color, the Scarlet Fire Dogwood also has an

unusually long flowering season, lasting for six to eight weeks in the springtime! The tree also has **dark green leaves with purple streaks** which contrast beautifully with the pink flowers. And in fall, the trees' leaves will transform into charming reds and oranges. Grows to 25ft tall x 20ft wide. Plant in full morning sun with protection from the afternoon sun intensity. Hardy to -20 degrees.

Summer Gold

Add some vibrant color to your landscape with this exciting ornamental tree that will put on a spectacular parade of changing colors outside your window from spring to fall. In spring, apple-green leaves with wide yellow margins unfold, followed by sparkling white star-shaped flowers. In summer, you'll notice hints of pink in the foliage, and when the days turn brisk, the whole canopy flushes pink and purple, eventually deepening to red.

Grows 15ft tall and 15ft wide

Sun to Partial Shade

Hardy to -20 degrees

Venus

Venus Flowering Dogwood is smothered in **LARGE**, stunning clusters of white flowers with white bracts held atop the branches in late spring. It has attractive dark green deciduous foliage. The pointy leaves are highly ornamental and turn an outstanding red in the fall. It features an abundance of magnificent red berries in late fall. The peeling gray bark and antique red branches are extremely showy and add significant winter interest.

Grows 15 to 20ft tall x 18 to 20ft wide and taller over time

Likes full morning sun or filtered shade

Hardy to -10 degrees
