Theater Planning *(June 2022- April 2025)*

Contributes on projects nationally for DLR Group as a Theater Planner. Develops and documents theatrical systems aligned with client's current and future uses. Systems include: dynamic lighting control and distribution, static and motorized rigging, and soft goods. Proficient in the drawing process from schematic design to construction administration along with writing specifications. Adept in workflows of project management, working with diverse clients, document organization, and clear communication. Volunteers as Local Equity Champion for the Colorado offices, and as the USITT Architecture Commission IDEAS representative for 2025-2026.
