Where in the World...

Would you eat a baby pig? Babi Guling is truly an unforgettable Balinese dish. For special occasions, it is a pig that is roasted and stuffed with traditional Balinese spices. It is one of the most famous dishes on the island of Bali! Traditionally made for special occasions, tourists can enjoy it at restaurants while they visit.

How's it Possible...

Aren't the earmuffs a great invention? They were created to keep our ears warm! In the Winter of 1873, 15 year old Chester Greenwood, was ice skating and realized that his ears were painfully cold. He found that wrapping a scarf around his head didn't help much, so he decided to find a better solution. Greenwood designed a wire frame and asked his grandmother to sew beaver skins to it. By doing this, he created the first pair of earmuffs! He ended up patenting the invention by the age 19 and even selling them to soldiers during the first World War.

When Did That Happen...

Brrrr! For people above the equator in the United States, the winter is a season of cold, dark days and if you're lucky, lots of snow to sled on! The Winter Solstice marks the exact moment when half of Earth is tilted the farthest away from the sun. It usually happens on December 21st, or 22nd, at the exact same second around the world. One myth is that the Winter Solstice is the coldest day of the year. However, the coldest temperatures are often still at least a month away, depending on where you live. This is because the Earth's land and water takes time to cool down. Don't worry! Summer Solstice will be here before you know it

Who Knows...

1. What kind of crystals don't break when they hit the ground?
2. Which of the following is not white? Igloo, a white dove, polar bears, milk, marshmallows, or snow?
3. I am white and beautiful like a snow but I am not as cold as Ice. Who am I?

That's Incredible!

The largest snow sculpture, is called "Romantic Feelings." It is measured at 35 m (115 ft) tall and 200 m (656 ft) long. It was created as part of the annual Harbin International Ice and Snow Sculpture Festival, which opened in the Heilongjiang Province, China, on December 20th, 2007. A team of 600 sculptors from 40 different countries used 3,398 m³ (120,000 cubic ft) of snow to create the Olympic-themed landscape, which included a French cathedral, an ice maiden and a Russian church.

Pet of the Month!

The Town of North Hempstead Animal Shelter

Joey came up through The Shelter Connection's rescue program. He is very social and friendly, but came knowing no commands or how to walk on a leash. He has made some great progress in a short amount of time! He is an energetic, smart guy that is looking for an active family dedicated to continuing his training. He gets along with other dogs but has a prey drive for small animals. He is not recommended to live with cats or other small pets in the house. If you would like to meet Joey, please give us a call at 516-869-6311.
