

MESSAGE FROM THE CEO

I joined the Navy after High School and served our Country for 20 years. As a Service-Disabled Veteran, it was time for a new calling.

I followed several paths over the years and one of those paths led me to invent My kOHzee.

As the Activities Director for a Skilled Care Center, it was my job to interact with the residents and it was my passion to find ways to enhance their daily experience with activities, conversation, and love.

Many of the residents were in various stages of mobility with some confined to wheelchairs. Keeping them comfortable often meant wrapping them in blankets which proved to be confining and difficult to keep in place.

Watching people choose between being comfortable and engaging in activities broke my heart. I had to find a solution. My kOHzee is the solution!

My kOHzee is not a blanket. It is Adaptive Clothing designed to solve these challenges:

- ✓ Infection Control
- ✓ Dignity
- ✓ Comfort
- ✓ Warmth

We are a growing, San Diego based, Disabled Veteran Owned Small Business with a mission to help people stay comfortable and active.

**THE NEW STANDARD IN
ADAPTIVE CLOTHING**

Quarter Back With Snaps

Keeps My kOHzee from falling off or bunching up.

Kangaroo Pocket

Can be used as a hand warmer or storage.

Carry Bag with Straps

My kOHzee can be folded into itself and be carried on the shoulder or hung on the back of a wheelchair.

Back Snaps

Allow for My kOHzee to be donned and doffed without the need for arms to be raised above the shoulders.

Breast Pocket

Suitable for cell phone, glasses, writing utensils, etc.

My kOHzee with Access Ports

Providing easy access for patients who require:

- ✓ peritoneal dialysis
- ✓ hemodialysis
- ✓ chemotherapy
- ✓ etc.

Full Body Length

Covers the wearer from neck to feet.

Dignity Flaps

Can be tucked under the wearer's legs to minimize exposure.

Activity Cuff

Minimizes the chance of interference with eating, table activities, board games, etc.
