A HORSE AND NATURE CAMP

Scientists and Professors alike, including Colorado's own Dr. Temple Grandin, CSU, stress the necessity for children to balance their abundant technology skills with an equally strong acquaintance with all of nature: plants, animals, soil, rivers, trees, etc. Thankfully this theory aligns with our passion: Life on this Beautiful Planet.

At CAMP UNPLUGGED we invite kids to tune out of their devices and turn to the connection with animals and nature to learn the importance of heart felt communication, caring and leadership. Through art and storytelling each will have an opportunity to express their uniqueness while making new friends and having FUN!

JOIN US!!

Held on a quaint farm in rural Platteville, Colorado campers will enjoy learning about plants, participating in farm life and daily chores, and basic horsemanship skills.

We focus on effective communication and building community. Campers will learn animal care and safety, techniques for living life fully being outside, taking care of our planet, and being immersed in nature.

We welcome all kids, including foster and kin (family).

CAMP UNPLUGGED

a place where kids and animals can be themselves
