The City of Troy's Geographic Information System (GIS) was developed to allow its citizens and staff to make informed decisions with timely, spatially accurate information. The GIS serves as a data warehouse for much of the city's infrastructure and allows city departments to analyze the physical features that currently exist in the city prior to making decisions to facilities, services, and infrastructure. This ability to examine the many factors affecting development helps the city administration to make more informed timely decisions. The Planning Department assists the City Manager in creating an environment for investment in the City of Troy and guides private and public development and redevelopment efforts.
Planning assists in creating a more socially, economically and environmentally sustainable community, as envisioned in the City of Troy Master Plan. The Planning Department provides expertise and information to elected officials, appointed boards and commissions, city departments, and citizens to assist in understanding and addressing key community issues and priorities. The Planning Department promotes and maintains a clean, healthy, and safe city through education, cooperation, and enforcement of our property maintenance, zoning, nuisance, and rental inspection codes.CALL THE PLANNING DEPARTMENT TO SCHEDULE AN APPOINTMENT PRIOR TO SUBMITTING A DEVELOPMENT APPLICATION.All developers that are interested in working within the City are highly encouraged to have a pre-application meeting with the Planning Department, and other City Staff, in order to more efficiently move projects along. To set up a pre-application meeting, please review the preliminary site plan application for a checklist of items needed to move your concept forward. If you have any questions or concerns, please contact the Planning Department. Need to pay for Planning, Zoning, or Engineering fees to the City?
