

HGM Postponement Notice – July 15, 2021

After careful consideration and with heavy hearts, we are announcing today that we are postponing the Holy Grail Multiverse convention, planned for November 20-21, 2021. Our initial goal 15 months ago with Holy Grail Multiverse was to bring an idea to life that ties traditional fandom conventions to the past from which they were conceived and to the future that these fandoms will propel us into. We picked a date in the future at a time when there was no solution, vaccine or cure to the pandemic that has shaken us all. Although California has resumed public events, out of concern for all involved, we will launch Holy Grail Multiverse when we are all more confident that the pandemic is behind us.

So many amazing ideas and relationships have come to be a part of Holy Grail Multiverse; the world class speakers under Ancient Man, the Holzer Files team under Mystic Arts, the epic gaming platform, a list of phenomenal cosplayers...and we cannot put into words what Statue Con and Cosplay Cars will share with the world...a whole new form of fandom. We are grateful for the amazing success we had with building such an ambitious idea and how quickly it materialized.

We know this dream of ours will come to fruition, but we would not be doing it justice and we would not be keeping our promises to our partners, sponsors and attendees if we continue planning for the fall of 2021. We must be able to give 100% of our focus to Holy Grail Multiverse in a time when we are not recovering from 18 months of a global disaster. Therefore, we will be moving the debut of Holy Grail Multiverse down the road a bit, so that all of you can experience this world the way we envision it.

Announcements will be made as soon as we have new dates and all of the information in hand. We sincerely hope that you will stay with us on this journey.

Sincerely,

A handwritten signature in black ink, appearing to read "Brad Toles". The signature is fluid and cursive, with a long horizontal stroke at the end.

Chef Brad Toles
and the staff of Holy Grail Multiverse
