1 FIELD | 1 PERSON | 20 MINUTES

SWOZI is a sports technology company with an extensive background in machine automation. We design, develop and manufacture the industry's most versatile line marking system and applications for sports fields. Our pioneering solutions are based on cutting-edge GPS and robotic technology to simplify workflows for turf fields while meeting sporting code with 100% accuracy. Driven by our passion for sports and high accuracy, we create advanced line marking solutions to significantly improve efficiency. Green-keepers, line marking businesses and sports field operators all over the world trust our expertise.

TIME SAVING

No more time consuming and resource-intensive work.

LESS PAINT

A precision-guided walk-behind line marker with
GPS robotic arm.

SEMI-AUTONOMOUS

RIDE ON | 10 FIELDS IN LESS THAN
300 MINUTES
A precision-guided ride-on line marker with GPS
robotic arm.

THE ULTIMATE LINE MARKING SOLUTION

The SWOZI *pro* and *pico* are versatile and adaptable line marking solutions. It uses GPS or laser technology, to accurately position and lay out lines. Laser is mainly used in areas with limited GPS reception (trees, buildings, stadiums).

The SWOZI laser allows you to mark with 100% accuracy when there is no GPS reception. It can be used as a supplement to the GPS solution or as a stand-alone solution.

BUILT TO PERFECTION EFFICIENCY, ACCURACY AND MOBILITY

The SWOZI cart is made of lightweight aluminium with a handle bar for easy pushing.

The SWOZI arm keeps the line straight even when you wander.

The SWOZI paint app is easy to use and runs on a standard Samsung tablet.

The line width and spray rate are adjustable to your needs.
