Instructor – Gary Link, IAO

This course is designed for assessors and staff. This course will give an overview and practical understanding of the process of a reassessment/reappraisal. We will be discussing how to “clean” your assessment roll and how to prepare your administration and the public for this project. We will also be discussing the maintenance of the new market value assessments and the benefits of a reassessment/reappraisal project. At the end of the class the student will have a deeper understanding of the roles of the assessor, their staff, the municipality, and the state (ORPTS) as it pertains to this often challenging process.
