

We Believe the Cannabis Industry Deserves the **SAME FINANCIAL SECURITY** Any Business Owner Gets.

WHAT IS CHANGING?

The relatively recent legalization of cannabis in many states has created an amazing investment opportunity for Cannabis entrepreneurs.

THE PROBLEM

Current federal and financial regulations have forced a predominantly cash based business model that significantly limits the ability of business owners to invest their profits or establish sound retirement plans.

WHY IS NOBODY SOLVING THIS?

Financial institutions refuse to work with people who earn a substantial part of their income derived from cannabis, CBD, or hemp based businesses.

THE SOLUTION

At Plant Your Financial Seed, LLC we know you want to be an established business owner with financial security and the right to participate in the asset growth and tax benefits other business owners enjoy. To accomplish that, you need a solid retirement plan and insurance solution to eliminate the worry of financial stability.

WHY IS THIS IMPORTANT?

As an established business owner in a legalized industry you have the Right to participate in the American economy fully and offer those benefits to your family and to your employees.

As a Veteran, member of a Minority group or everyday Cannabis owned business, our love for country is deep and abiding, but that love does **Not** extend to the U.S. Treasury. Our mission is to ensure that Cannabis Business owners have the most tax efficient plans available so that they can increase their resources like any other business owner. While we cannot remove Section 280e from the tax code, what we can do is ensure that much of the income generated from the manufacturing and distributing of cannabis ever gets taxed again. Anyone entering the cannabis field will have to leave it eventually. We can show you that on that day, you will have a large, safe, tax-free cannabis exit strategy in place.

WHAT EVERY CANNABIS BUSINESS OWNER WANTS & NEEDS :

BENEFITS OF CANNABIS OWNERS 'PRIVATE PENSION'

Creates a legal, non-reportable tax-free income source for the business owner

Guaranteed against market losses annually

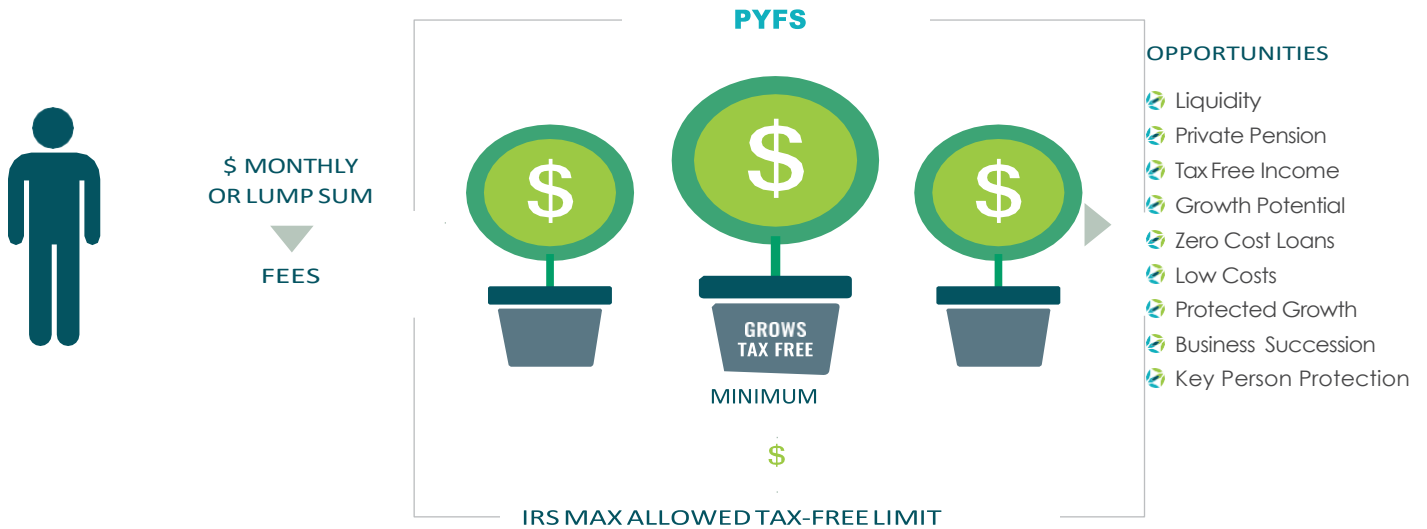

Potential for double-digit % gains that "lock-in" every year

Long-term fee structure less than a traditional managed investment account

Potential asset protection from creditors

Additional tax-free living benefits similar to Long Term Care

Here Is How We Do It

FUNDING THE OPPORTUNITY

Once qualified, you invest into the account at an amount of your choosing without limits.

GROWING THE OPPORTUNITY

After fees and cost, the majority of the amount will grow without risk of loss.

USING THE OPPORTUNITY

Use the money anytime for any reason tax free while still participating in market growth.
