

POLYMER IN CONSTRUCTIONS

Plastic is everywhere, Polymer finds its ways to help in the construction industry:

APPLICATIONS

ANULON[®]

Shuttering boards

Anulon 98 Non stick shuttering boards are replacing wooden boards. These shuttering boards are UV protected and water resistant therefore can reused multiple times and can last for a lifetime if handled properly.

SEE THROUGH GLASS

Unbreakable see through glass to provide see through windows in various spaces and providing safety to the workers from any accident that may occur. Construction sites are very prone to accidents and these unbreakable sheets puts another layer of protection in the required spaces to prevent unwanted loss

LINERS

Anulon 94 UHMWPE liners for conveyor belts and other places wear abrasion resistance is required. These liners facilitate in smooth flow of material without damaging the mother plate of any surface.

ROLLERS

Anulon 94 UHMWPE and Anulon 94H HMHDPE Rollers are used in conveyor belts as they have very good abrasion and impact resistance properties and are also non stick in nature.

Mallets

Anulon 118 Mallets are used in place of hammers and doesn't harm the workers and facilitates smooth work flow.

More polymer applications

- **Polycarbonate Roofing**
Sheets for day light saving
- **Anuflex** transparent soft strip curtains
- **Anulon 98** Geomembrane

PLASTIC ABHIYANTA

PLASTIC ENGINEERS AND CONSULTANTS

AN ISO 9001:2015 CERTIFIED COMPANY
